Welcome to the Open House

The goal of the US 101/OR 6 project is to improve the downtown intersections, both now and in the future.

- **2011**
  - Comment Period: Jan-Feb-Mar-Apr-May

- **2012**
  - Identify Preferred Alternative: Jan-Feb-Mar-Apr-May
  - Develop Mitigation Plans: Jan-Feb-Mar-Apr-May
  - NEPA Decision: Jan-Feb-Mar-Apr-May
  - SAC meetings: Jan-Feb-Mar-Apr-May
  - PMT meetings: Jan-Feb-Mar-Apr-May
  - Elected official briefings: Jan-Feb-Mar-Apr-May
  - Public Hearing: Jan-Feb-Mar-Apr-May
  - Open House: Jan-Feb-Mar-Apr-May
What you can do tonight:

• Learn more about the project and the **Environmental Assessment (EA) process**

• Review and provide input on the **refined alternatives** and let us know what you think of only advancing the design that extends Pacific Avenue north of 1st Street

• Learn how you can **get involved** in the future
Project purpose and needs

The purpose of the Tillamook: US 101/OR 6 Project is to improve safety and mobility for cars and trucks on US 101 and OR 6 in downtown Tillamook and across the Hoquarten Slough.

The need for the proposed action:

• The existing and future travel demand on US 101 and OR 6 in downtown Tillamook exceeds available capacity.

• The existing crash rate on US 101 in downtown Tillamook exceeds the average crash rate for similar facilities statewide.

• The travel lanes on US 101 in downtown Tillamook are too narrow to accommodate automobiles, trucks, and recreational vehicles while maintaining on-street parking.
# Tradeoffs between designs

</tbody>
</table>
Design 1
Replace US 101 Bridge

Reconstruct US 101 in current configuration

Construct new four-lane bridge

Widen lanes on Main and Pacific Avenues
Design 2
Extend Pacific Avenue North

- Construct new four-lane bridge
- Modify access to Hoquarten Slough Interpretive Trail
- Construct new Pacific Avenue extension for northbound traffic
- Widen lanes on Main and Pacific Avenues
Any project receiving federal funding must comply with the National Environmental Policy Act (NEPA) requirements to include environmental values in project decision making.

An Environmental Assessment (EA) will be prepared for the US 101/OR 6 project to comply with NEPA. The EA will:

• summarize environmental impacts (direct, indirect, cumulative, and construction impacts)
• recommend mitigation measures

Two build alternatives and a no build alternative will be evaluated in the EA.
Community members and local agencies can comment on the EA during a 45-day comment period. Comments will be collected through the project web site, by mail or email, or in person at an open house and a public hearing.

Environmental Assessment (EA) process

Topics addressed in the EA will include:

- Air Quality
- Archaeological and Historic Resources
- Environmental Justice
- Fisheries
- Floodplain/Hydraulics
- Geological Resources
- Hazardous Materials
- Land Use
- Noise
- Parks and Recreation
- Right-of-Way
- Socioeconomics
- Transportation
- Utilities
- Vegetation
- Visual Resources
- Water Resources
- Wetlands
- Wildlife
Review and comment on the Environmental Assessment when it’s available

- **Find out when the EA has been published** and where to get your copy:
  - Monthly email updates from project team
  - Postcard to all Tillamook addresses and those who have signed up for mailing list
  - Ad in *Headlight Herald*

- **Comment** on Environmental Assessment
  - On our web site (www.tillamooktraffic.org)
  - At a public hearing or open house
  - In writing
• PLOT PHOTO MAPS OF ALTERNATIVES
